

BioPet

Vet Lab

Presents...

DNA Proof of Parentage

DNA Proof of Parentage

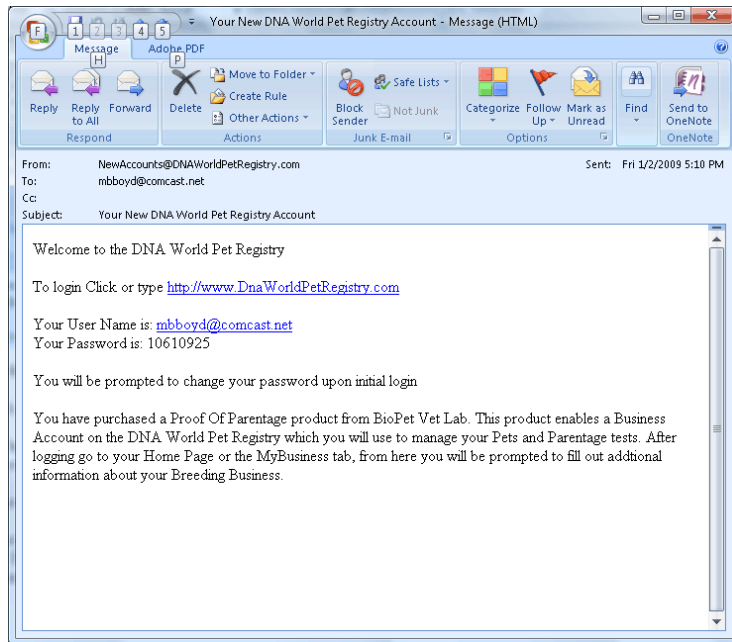

- Positively prove litter parentage through DNA analysis
- Independent DNA certification
- Unlimited access to online parentage analysis tool and DNA certificates
- Online breeder management tools and lifetime record storage
- Retails for \$39.00

DNA Proof of Parentage

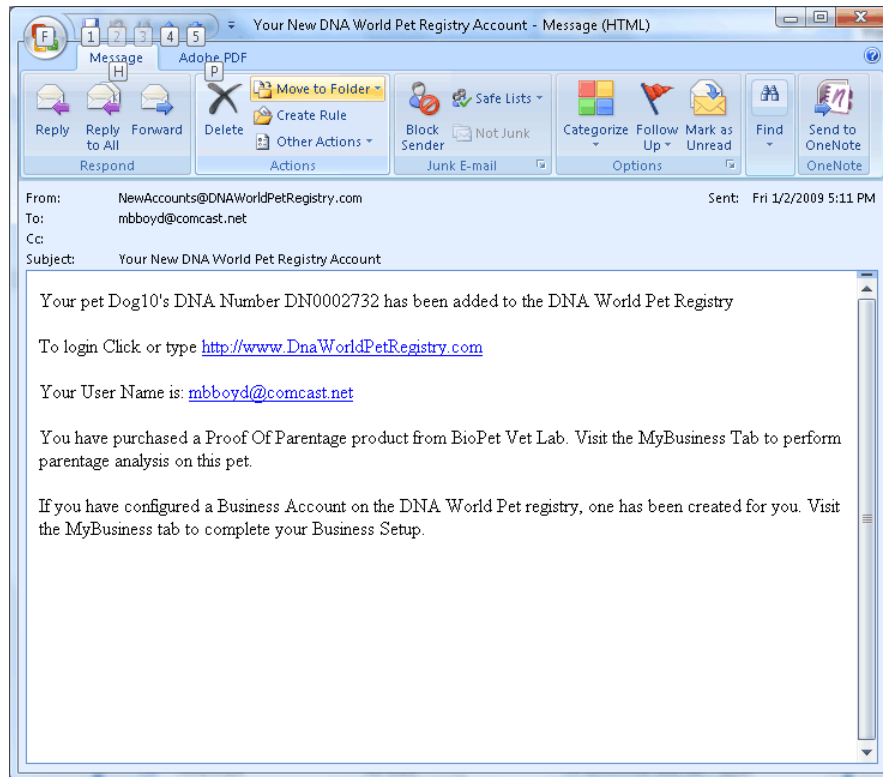

How It Works

- Swab mom, dad and puppies and send in their cheek samples to BioPet
- You will receive an email containing your username and password once your DNA sample has been received at the lab.
- You now have the ability to log into the DNA World Pet Registry and start configuring your profile(s).

DNA Proof of Parentage

- You will receive another email once BioPet Vet Lab has processed your DNA sample and the markers are available online to run your parentage analysis.
- This email will direct you to the MyBusiness tab of the DNA World Pet Registry where you can set up your business and perform the parentage analysis.

DNA Proof of Parentage

From the MyBusiness Tab you can...

- Run your Parentage Certification Analysis
- Print DNA Certified Canine Certificates
- Transfer pet profiles to the new owner when you sell the litter
- Configure For Sale Listings for any dog you own.
- Link to your MyPets and PetCare features

Is one of your pets not in the drop down list? Please check your Pet List for status

Only non-certified pets with complete DNA profiles are available for certification

DNA Proof of Parentage

The screenshot shows a Windows Internet Explorer browser window displaying the DNA World Pet Registry website. The address bar shows the URL: http://www.dnaworldpetregistry.com/Parentage_Analysis_Results.asp?TargetDnaID=DN0002512&FromPage=My. The page title is "DNA World Pet Registry - DNA Proof of Parentage...". The main content area is titled "Parentage Test Results" and displays the following information:

- Parentage test results for DN Number: DN0002512
- Date: 1/2/2009 5:58:00 PM
- Result: Certified
- This analysis states that:
 - Puppy: Dog1, DN0002512
 - is the result of a mating between:
 - Dam: Dog8, DN0002533
 - Sire: Dog1, DN0002512
- Analysis executed by: Mark's Breeding

Below the results, there are instructions on how to print the certificate and options for certificate styles. The "How to Print your DNA Certified Canine Certificate" section includes:

- Step 1)** Select a Certificate Style
 - Color
 - Black & White
- Step 2)** Optimize your Printer (see instructions below)
- Step 3)** Generate and Print your Certificate
 -

The "Certificate Styles" section shows two preview images: "Color" and "Black & White".

Printing Certificates

- You can print DNA Certified Canine Certificates right from your profile
- You can choose between a color certificate or black and white depending on your printer.
- There are also detailed instructions on how to optimize your printer settings to create the best quality certificate for your customer.

DNA Proof of Parentage

Benefits

- Provide DNA certified pedigreed dogs to your customers
- Your DNA Certified Canine Certificate can be printed any time and given to your customers to show your commitment to customer satisfaction
- After your dogs are certified their analysis results can be viewed anywhere the DNA Certified Canine Seal appears of the DNA World Pet Registry.
- Transfer the pets profile to the new owners and empower them with all the services the DNA World Pet Registry has to offer.
